Objective

React.js Development Training Course

Professional Summary

At the beginning of my final semester, I focused on studying the main web technologies, developing practical projects, and challenging myself in both front-end and back-end development. Confident in my learning, I am seeking an opportunity to further enhance the skills I have already acquired.

Technical Skills

HTML-5, CSS-3, Javascript, React, TypeScript, WordPress, JQuery, Bootstrap, MUI, Node.js, API, Git, Github, MongoDB, SQL.

Education

Bachelor in computer science - University Estácio - Graduated: 2024

Highlighted Project

Website Kindom of Norta

Link: <https://red-queen-app-ten.vercel.app/>

In this fictional government project, the following concepts were applied: React, state management, routing, componentization, props, animation, and styling with polymorphism.
